Whispers from The Brighter World
A Fourth Revelation

You do not need to be at a specific place to take these messages; any choice you may make is convenient to us. Only your inner state is important in this matter. All is grace for a loving heart like yours, which is perceived so well by him.

"We constantly revert to the same issues throughout this long way which we have followed together. Life on Earth is also a series of necessary repetitions. Will we manage through these repetitions to touch the hearts? The future will tell us by showing the impact of these writings on them. Our objective is to help our brothers and sisters in their long learning process of a spiritual life fraught with obstacles, many of which are within them. Man is recalcitrant on many aspects; one has really to insist to make him become aware of his weaknesses, which impair his progress.

"He tolerates himself, and does not look at his own faults as fiercely as he looks at others' faults. He easily minimises his own negative aspects and remains very optimistic about his abilities. These messages aim to remind everyone, if need be, how human nature is very fragile and also volatile, according to its moods. Some aspects of one's personality are regulated as one moves on the path with perseverance. In this regard nothing is acquired definitively. A lot of patience is required to reach the goal; the result is worthwhile and we support them all, in this long and epic journey."
