My child, the history of our love is like the history of the Mission, it is growing and will not end."

The Medium: "Babuji, I would like to please you so much in everything!"

"So, distance yourself as much as possible from the events and the material side of things. Adopt the habit of taking refuge in the sadhana; by so doing, you will come to me and you will regain strength. Advance step by step, we do not expect you to move mountains, but only to cope from day to day. All these small victories pieced together constitute your inheritance. It is the only valid one, as you know very well. The tangible properties remain on the Earth; they do not mean anything in the beyond. Carry on your way, we follow you and anything related to your life concerns us. Whatever the others do for you, they do it for us. That is the way it goes. There are ties which are beyond reason, such is the characteristic of matters of the heart. Continue in the spirit of this seminar. It is being held with some intensity. Do not lose any crumb of it; they are worth gold."
