Whispers from The Brighter World

A Fourth Revelation

*Tuesday, June 17, 2003 - 10:00 a.m.*

*Long is the way that leads a soul towards the goal. A few books give so many details on a supposed hierarchy which operates in various spheres and which men, who are apparently blessed with higher knowledge, can classify by detailing the role of each member of the hierarchy. We will not herein comment on this information; our matter is beyond these interpretations which are not important in the spiritual development of our brothers.*

*"First of all, it is advisable to do what is necessary to foster everyone's evolution, without using information that would satisfy his curiosity without providing effective means of introspection and cleaning.*

*"So many idiotic remarks are written that meet the need for sensational literature, instead of constructively contributing to the spiritual development of their readers.*

*"In supporting this work, our goal is to help all become aware of the divine life, develop it within them and strive to modify that which can be modified in their behaviour.*

*"We cannot meet all their requirements. Some people's curiosity even prevails over everything, including the need to actually progress by relying on true values rather than on supposed revelations of an idyllic image of the beyond meant to satisfy their imagination and their thirst for details. Those of our brothers who persevere in reading these writings will inevitably benefit from their help in their regular [spiritual] work."*
