

Thursday, July 24, 2003 - 10:00 AM

This special day for our Mission, Master's birthday, must be celebrated with respect and love. Each one of our aspirants must realize how he is lucky in this life to meet the divine guide who can lead him towards his highest destiny. It is a special time in the process of sadhana: an opportunity offered to a disciple to let his heart express all its gratitude and to show it.

"All of us here surround this very much-blessed person with our special attention. He is serving us with such an enthusiasm with a view to expanding our Mission in the world, in response to the call from many hearts in need that have not found hitherto a way that suits them. The simplicity of our way makes it attractive to many people who contemplate to experience a true spiritual step. May all our brothers and sisters receive with fervour, the blessings granted to them on this occasion. We particularly insist this year on our son's birthday: it coincides with a pivotal moment for our Mission, which fosters its expansion all over the world. Things will happen with time; humanity is at a turning point. Will it use the opportunity offered to it? We are working to that end hoping that many hearts will follow us in this wonderful spiritual adventure."
