Whispers from The Brighter World
A Fourth Revelation

Sunday, July 27, 2003 - 10:00 a.m.

There is nothing surprising about these great souls[10] visiting you; you are used to it. The channel is open when necessary and you need to be helped. Your life is not ordinary, needless to say! Our communications will be recognised and appreciated by many souls who will not be insensitive to them; the understanding of these phenomena will grow with time.

"Following their great mutation, people living on the Earth will have to align themselves with cosmic laws, without breaching any, and be as one, that is to be as a single heart whose pulsations will align themselves with those of the universal engine. We will not make sensational descriptions or revelations here, as is the case now in certain publications highly favoured by some of our brothers. In the current state of affairs, such descriptions or revelations cannot be understood. We must simply stick to a few allusions necessary to prepare minds. It is necessary to wait for a favourable moment when the access to this level will be possible, thanks to irreversible phenomena.

"Within a family, differences are not always respected, far from it, let alone for a great human family which has different races and ways of thinking!

"This unification will have to prevail with regard to the approach to the Divine, in the framework of a system which allows real work on this aspect. This picture seems idyllic and above all, currently unachievable.

"The elected humanity will nevertheless have to abide by strict rules and get rid of its wall of defects of all kinds which hampers an elevation that is divinely desired and planned.

"Let us all work from this point of view by visualising these remarks materialising. Strange though they may seem today, they will take on their full meaning in due course."
