Whispers from The Brighter World
A Fourth Revelation

Saturday, August 23, 2003 - 10:00 a.m.

Your gifts remain intact, in spite of what your body has undergone for such a long time; all is grace, my child.

"The human being, in his complexity, has many aspects which are completely beyond him. He is a multiple being and his real life is not restricted to the activities of his physical body. A thorough spiritual process makes it possible to become aware of it. An incarnation is not limited to his [Earthly] person; according to his own evolution, he may also be active at other levels. Acceptance allows a complete development of the being.

"Your perceptions help you to be aware of all these phenomena, which you adhere to without difficulty, owing to your long exposure to extraordinary experiments; how could things be different!

"This is not the case for all individuals, who believe they are limited to only this life on Earth and do not want to admit that it can continue elsewhere.

"We cannot force anything in this area; only spiritual evolution can open the minds of those who are the most resistant to their many capabilities. Many human beings are kept in the dark by influential groups that voluntarily ban a teaching adjusted to the realities of life in all its forms. These realities will be known at the dawn of the new era.

"This must happen anyway, and finally the misconceptions, passed down through centuries and leaving man in complete ignorance about who he really is, will be abandoned.

"An action aimed at liberating him from his blinkers and facilitating his access to true knowledge should be pursued; only it [the true knowledge] will make him free."
