Whispers from The Brighter World

A Fourth Revelation

Saturday, October 4, 2003 - 10:00 a.m.

You have long understood it well: the most important thing is to love: completely, deeply, without expecting anything in return. My child, thus you have the key to open the doors of a space reserved for pure hearts, the rest is given in addition.

"So many humans speak about love without really knowing it. They hopelessly search for it by looking for a certain approach to pure, immutable and eternal love, which cannot be found on the Earth. They instinctively have a presentiment of the greatness and power of this constructive energy emanating from the Divine and animating the worlds – creative, redeeming, unique in the whole of creation, since it is in the heart of all things created. It is necessary to go in depth into the concept of 'vibration' on Earth; man will truly progress in knowledge, only by opening to the comprehension of this influential phenomenon.

"It is not easy for him to figure it out, as he is used to relating everything to the impressions produced by the senses. He has yet to overcome a gap; once overcome he would be led to a real perception of what surrounds him beyond sensory aspects. Energy on the Earth will be in line with its evolution; it is setting new targets for itself, which will lead it towards another destination.

"Our way prepares hearts accordingly; they can perceive these major purposes through an approach clearing their way to new horizons. Some wisdom must prevail for that. Let us all continue to work accordingly. Our blessings go with all our brothers, in this ascent."
