Do not doubt about your perceptions; a refined medium as you are reaches higher dimensions, in relation to other levels of consciousness, which results in 'The Correspondences.' We brought you to this easiness for precise purposes: to correspond with the spiritual entity of your Master, as will we name it for comprehension's sake.

'This system is not common; that is worth underlining. The human being on this Earth is on a stage. He plays a role, a character. One of the facets of his personality is committed in this play, which does not limit him to his Earthly appearance. The spiritual evolution of this being allows him to access levels of consciousness that correspond to him and to act accordingly. When it is about a Master of great stature, a broad range of possibilities are offered to him, though he cannot humanly control all his extraterrestrial activities, as we shall call them. That is fortunate for him, otherwise all that would be much too heavy. Man has yet to discover the resources of some of them, which cannot--this has to be made clear--be accessed by all.

'Humanity is moving. It advances slowly, but irremediably. It will have to move away from the obscurantism prevailing in this world. All can go very quickly, when the moment comes. It is high time for our brothers and sisters not to look the other way any more, and to admit their limitations in this aspect of esoteric knowledge, without rejecting what they currently do not comprehend.

"We must forge ahead and show the way, no matter what recalcitrant [minds] may think in the face of phenomena which escape them, as they cannot be explained intellectually. The barriers will be broken down, in spite of ignoramuses' reluctance."
