Whispers from The Brighter World

A Fourth Revelation

Tuesday, October 28, 2003 - 10:00 a.m.

Is your heart not happy in these contacts! Therefore note down, won't you? Your path is painful, my child, and you constantly think of the most underprivileged who also struggle under such difficult conditions.

"You have already long understood the true meaning of life: of why there are sufferings and all sorts of ordeals. This state of mind in some way makes the path less painful, but all our human brothers and sisters do not see it from this angle.

"Humanity suffers from a thousand evils and we are witnessing this sight with the helplessness of those who know the relevant reasons, without being able, in the current state of its evolution, to radically change things.

"This time will come, let us repeat it: it is slowly in the making. The advent of a better world, regenerated in its substance, is dawning on the horizon. Many changes and reversals of patterns of the way of living on a completely changing planet Earth, are taking place. They will be the early-warning signs. The human race will consequently be transformed and will submit to the application of the divine laws that have been ridiculed in this world for too long. Man will have no other way out but to be carried away by the wave of regeneration. Humanity, after having undergone an ordeal by fire and suffered a lot, will come out of these trials with increased stature and turned towards God.

"The effects of these coming upheavals have already started to appear, on a very small scale for the time being, but history is in the making and, inexorably, it is advancing towards its culmination. Let us all continue, as much as we can,

to work so that all these great plans can be achieved and bring the light to men struggling for their future."
