Whispers from The Brighter World
A Fourth Revelation

Sunday, November 2, 2003 - 10:00 a.m.

Your heart is a blessed place, it does not belong to you as a human being; we are referring here to the spiritual heart – it is vast and of the divine essence. Worlds are reflected in it, their resonance in it is beyond your perceptions.

"Do not forget that it is, in its subtle part, a point of connection with the Divine, the key element capable of opening a door to eternity.

"The human being's complexity is so great that no erudite book has ever grasped it. Its physical body will revert to dust. After having been detached from matter, the subtle bodies, which go with it and which form a whole indispensable to life, will join a kind of central unit, which is the essential aspect of the being. Spiritual work is important; not only does it foster the rise of the being, but it also facilitates the above-mentioned transfer as it removes grossness from these subtle bodies.

"Other dimensions of consciousness await the subtle bodies, which they will access according to their vibratory quality and their level of subtlety.

"We can only encourage our brothers in their spiritual process. Not only will it facilitate their transition after having left this world, but it will also open more luminous prospects to them.

"Love – this rare energy which we have already mentioned, this high divine vibration – is the best ally of the soul in its progression. May it touch every fibre of the heart of our brothers and strengthen them on the way we propose for them. Our blessings particularly accompany them."
