My child,

"The progress initiated in your relation with your Master is satisfactory. It must continue according to our views. Everything has its raison d'être. Humans are progressing on the path while looking before them, and they sometimes neglect what concerns them personally. From now on, your Master represents for you the incarnate light on this Earth. This progress towards him shows that it is not always easy to go from the outset towards a living Master and to accept him; everything is commendable, only the result matters and the solidity and the depth of the underlying commitment. All our aspirants do not react in the same way; what is edifying are the results of this long quest, leading the soul into its way.

"Some of our abhyasis, though subjugated and convinced from the beginning, yet turned their backs on him, which is sad for them. Things are like that: humans are fickle, our faithful [aspirants] have been, over all these years, moving in their diligent process. It is promising in many ways and it delights us. We only want the good of all. Each one is progressing at his own pace; we are helping them in the appropriate direction.

"In this kind of process more than in all others, it is wise to take stock [of the situation]. Is the assessment of these years of practice satisfactory? Such introspection gives by itself the answers, in a proper contemplation. Concerning the deep feeling appearing in secrecy, in the heart of silence, all is said and speaks for itself. Let us work together, in view of a great movement redeeming the entire humanity. May all be blessed!"
