You devote all your energy to our service, which has become for you a reason for living. You have the example of your Master who is himself a great servant of our Mission. Love is your strong point, the driving force making you progress every day, as we did before you. Without this round of burning hearts, nothing great in this area could be established firmly.

"Retrospectively, it is good to see the progress made, since the beginning of Sahaj Marg action on this Earth. The assessment made on the occasion of the recent celebrations in honour of Revered Lalaji is a brilliant proof of it. Nothing solid can be built with vague approximations and at whim; only obstinacy in work and unfailing faith can lead to the results visible currently. This system was not given in vain; it is not just a passing fancy, but a movement capable of helping men more and more, proportionally to their needs in this area. Disconcerted and helpless in the face of a life becoming aberrant, they will need a solid anchor to face up to it. We do not claim to answer all their questionings and to solve the material problems they are confronted with. We only propose to them a way of advancing spiritually, by shaping themselves to better face up to daily life.

"Nothing is simple on this Earth; it is necessary to have a solid basis, to bear the events philosophically. The great sages of all times detached themselves gradually from the turbulences created by men. As for those resulting from the outburst of the elements, they saw in them the manifestations of divine power, calling them to order. May the obvious signs of it bring them to their senses!"
