# Whispers from The Brighter World

## A Fifth Revelation

*Wednesday, February 18, 2004 – 10:00 a.m.*

*My daughter, you have this rare opportunity of transcribing on a daily basis a teaching coming from a world very different from the one where our brothers and sisters live. Will they feel in this teaching the undertones capable of touching them? It is up to each one of them to appreciate according to their own receptiveness. We must adapt to what is possible on the Earth, while remaining within the framework of current evolution, without anticipating too much what the Earth will be tomorrow. Some of our remarks can pass unnoticed; nevertheless, they clear the way for the future of humanity.*

*"How could men imagine what humanity will become? We cannot, in the present state of affairs, go beyond a certain threshold that should not be exceeded. Even within our way, not all people have an equal level of receptiveness; there is no uniformity in this world. Those who are the most open-minded about reality are considered leaders, by and large, and they take their brothers along with them; so has it always been.*

*"An enlightened mind does not remain isolated in the darkness; advancing alone on the path, he is followed by others who become bearers of the same message. It seems to all of you that we remain in the abstract: everything is so subtle in the area of the Spirit, which is said to blow where it wants and when it wants.*

*"All our aspirants, without exception, follow the same path leading to the same goal; everything is a matter of nuance, faith and fervour in practising, and a*

*willingness to advance in order to surpass one's current condition. All is possible. God is Great and your Master is vested with His powers."*

*Babuji*
