Whispers from The Brighter World

A Fifth Revelation

Thursday, February 26, 2004 – 10:00 a.m.

Never lose sight of this notion of salutary love that conditions your present and future life. This text has touched your hearts, those who are receptive to the beauty mentioned herein; it testifies to your involvement in the process recommended here. As all of you advance, the doors open and let you foresee other possibilities than those being considered by common mortals.

"Pauses are required along the way; they are useful for the work to be achieved on both sides. The secrets of the heart are discovered with time and cannot be unveiled in vain. A strong appeal is necessary with an accompanying and suitable state of mind that can foster stability. In this area, there is no room for imagination; everything can be obtained with time and patience. It is needless to say, 'I want to reach this stage or that one'. In this situation, the mind cannot decide anything, fortunately. Only faith, perseverance and love make it possible to explore these treasures granted to the spiritual heart.

"By no means can man decide on the outcome of the endeavour. The Great Masters of the past used to put their followers to the test, sometimes over many years, before recognising them as genuine aspirants of spirituality. A way like ours is less demanding. It takes into account current times, although this does not make the final result easier to achieve.

"On no account can this treasure be sold off. Relevant rules are immutable; modern life has no bearing on this treasure. The pure in heart will see the light, as the saying goes. We offer them the means of achieving this goal under certain

conditions, with surrender remaining essential in every respect. Humility and interiorisation prepare hearts very favourably; our blessings are upon them."
