Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World
A Fifth Revelation

Wednesday, March 17, 2004 – 10:00 a.m.

The horizon is widening before you. These long years of unremitting practice and of faith in your Master and our system have led you to this peak where you can catch a glimpse of the full extent of this divinely orchestrated symphony. Even if you are not able to assess the progress you have made, your heart has opened up to the transcendence. It feeds on it and rises above ordinary aspects of daily life. It allowed itself to be won over and it drinks from the divine source, focusing on what is essential in light of an unprecedented feast in this world.

"Keep going, my child, and let your heart sing; love us infinitely. We return it to you."

Babuji
