This teaching coming from the world of the Spirit will take its letters patent of nobility in our way, under the high authority of its Master, my son. This harvest of messages is not given in vain; it will bear its fruits in the heart of our brothers, ready to understand them.

"Our way will be able to adapt to future times, it will evolve according to the broadmindedness of our aspirants, caught in the upswing of human evolution. Sahaj Marg was founded from this point of view; it is making its way among an ever-increasing number of persons who are more receptive to the reality of a true spirituality (stripped of a sluggish context) where the power of some people will not supplant that of the Spirit. It will be established come hell or high water according to divine will; it is up to men with good faith to act according to their principles and profound convictions.

"May all be blessed and strengthened, in their undertakings."
