Whispers from The Brighter World
A Fifth Revelation

Tuesday, April 6, 2004 – 11:00 a.m.

We take advantage of the moments when your health permits us to express ourselves beyond our usual conventions.

"All human beings, however spiritually advanced they may be, have their own weaknesses; they cannot escape the human condition in its entirety. They must face up to things and develop by going through the difficulties encountered along their journey. What would be the meaning of a smooth and flawless life that would not challenge them in the face of events that unfold from beginning to end? These writings are food for thought. May they help our brothers in the near future, as per our wishes!

"My dear daughter, spare yourself; encouraged by your goodwill, we are imposing upon your kindness. Be blessed."
