Whispers from The Brighter World
A Fifth Revelation

Thursday, April 15, 2004 – 10:00 a.m.

The time of regeneration will entail upheavals; it is inevitable. Man is drifting off his path and he has lost his bearings. More than ever, his destiny is in the hands of God. Only He possesses the final solution concerning the advent of good in this world. Humanity must go through all the stages of its evolution; as we already said, it has reached the turning point where it should logically turn to spirituality.

"Many hearts are ready and are going in this direction. Our way is an option for them. It will keep growing and will be within reach of those who find it suited to their aspirations. Each one must be able to see where they stand in that respect and should find a way of blossoming with faith. It is by respecting the needs of each one that it is possible to help in the most effective way. We don't impose any rituals or any kind of commitment, except for practising at their convenience while respecting others.

"Many human beings feel nervous and anxious in the face of a rise in violence and growing distress related to life as it is today. What will happen tomorrow? This violence will reach its peak and distress will be widespread. Only true spiritual values will allow one to hold one's course.

"May our brothers and sisters remain confident in their future; they know they are helped and supported even if they are not spared the harshness of life. That is how laws are in this world. May the time come soon when the world will be different, freed from all these shackles."
