Whispers from The Brighter World

Monday, May 17, 1999 – 8:00 a.m.

We want to warn you once again – you are heading towards difficult times. We do not mean to throw you into a panic, but you'd better prepare yourselves mentally.

Your 'scientists' are sorcerer's apprentices. Under pretext of going towards progress and the discovery of other worlds, they put the Earth in a dangerous position.

Could chaos be avoided? By defying natural laws, one plays with fire. What is taking place on Earth is serious.

The monstrous pride of certain people makes them believe they are geniuses.

How to stop them in their madness? We may not succeed.

There are such stakes in this escalation, national glories, money powers. This power of evil is difficult to contain. We can only wait and try to preserve what is possible.

Dear children, we cannot give you a miracle solution to protect you.

God is great, keep your faith, and hope for more serene days when you will no longer have to fear the madness of your fellow human beings.

Take refuge in sure values and as much as possible be in union with the Creator.

Babuji
