Whispers from The Brighter World
A Fifth Revelation

Sunday, May 23, 2004 – 10:00 a.m.

Spare yourself, my child, your eagerness to serve us is such that it pushes you to exceed your limits. It is your heart that inspires action beyond reason.

We cannot blame you on this point; we know this power generated by love, which propels the being on a way well mapped out by it and divinely inspired. Divine love is a very subtle energy that cannot be defined by man and detected by science, which is restricted to evidence, according to its conception of the truth.

"The truth is not known to humans in their current stage of evolution. Will they manage to approach it? Future times will tell. Each one of them, for the moment, must be content with the insights given to them. All in all, minds are opening up; this fact raises hope for the future. Let us keep progressing in our way; it is making its way in the hearts, in accordance with the plans envisaged for the new era.

"May divine love subjugate the hearts of our brothers!"
