Whispers from The Brighter World

A Fifth Revelation

Tuesday, June 15, 2004 – 10:00 a.m.

Yes, all is vibration and comes down to this principle; the planet Earth does not escape the rule. Life results from it and human health depends on it. A great step in this direction would be to consider the disturbances and anomalies of the physical body from that point of view. It will be possible to fix all the dysfunctions by taking this fact into account.

"The key to this enigma is not given to today's man; that would be tantamount to giving a toy that is too sophisticated to a child. A new race has been born in this world that makes light of continents and borders. The broadmindedness of these beings makes all of them similar, in terms of their level of comprehension and approach to the Divine. That race will be given information enabling it to relieve human miseries, to the extent that it is possible.

"A great step will be taken, however, making it possible to change the face of the world.

"These times will come; these are not fanciful remarks. This truth concerning highly advanced beings is already verifiable. Not yet well known, the beings having this characteristic, and whose number is growing, are currently the leaven of a regenerated humanity. This race, corresponding to the criteria of the new era, will continue to be refined in the future. There is every hope; may all our brothers on the path win the only treasure which is worthwhile: a spirituality at its highest level freeing them from their burden."
