Revered Babuji Maharaj

Whispers from The Brighter World
A Fifth Revelation

Monday, January 17, 2005 – 10:00 a.m.

The spiritual entity of your Master is growing. Being incarnate, he cannot himself assess the extent of it and the importance of his action on Earth. Our Mission is also growing proportionally, putting its capacities into action. Its action is reflected on higher levels, consolidating the effects that leave a deep beneficial imprint on the being, which is itself the spiritual entity of the aspirant.

"How can that interaction be defined? We must, little by little, bring our brothers to a broader understanding of that principle. In general, many of them don't wonder about this; they lead their everyday life, including in it a spiritual process which they chose, and that aspect needs to be emphasised. It is not a question of a spiritual, ethnic or family tradition; inspired, they came towards us and they conform to the practices of our way.

"May they become aware of what it actually represents! Being young at the present time, it is developing its history on the Earth, although, in a very remote time, a precedent had already left its mark in the world of men in preparation for the dawning future.

"The ways of God are unfathomable; if men knew, they would go more directly to the essentials without burdening their minds with superfluous things. Their nature is like that: caught in a proliferation of ideas and of sometimes excessive passions, they look for their way in the confusing labyrinth where, fortunately, the truth can emerge for them.

"May our brothers keep deepening their quest for the absolute truth. They possess it in them; we help them with that under our constant blessings."

Babuji
