Whispers from The Brighter World
A Fifth Revelation

Monday, January 24, 2005 – 10:00 a.m.

We understand your qualms concerning these messages, my child, as I have gone through equivalent moments when the Revered Lalaji came to me, to dictate to me the content of certain books of the past – content which was not understood and, particularly, not admitted by all. That does not matter. One has to go beyond these kinds of reactions, otherwise how could one make our aspirants advance and overcome their understandable reluctance in this era of ignorance?

"Everything in its own time. It's time to sensitise our brothers to this kind of means, even if they are deprived of the possibility of communicating with other levels of consciousness.

"Let your heart follow its natural inclination, trusting in destiny. You did nothing but followed what we were expecting of you. If you didn't surrender, how could we operate and inspire you according to our intentions! Do you believe it is easy for your Master to respond to all that we ask of him? His task is heavy: the Mission is growing and its structure is developing, which is not without its problems, as human beings tend to complicate everything.

"My son aspires to peace and we expect much more of him. We will soon come towards him in an unexpected way. May the endless manifestations of our love be a great comfort to his faithful heart.

"The Mission is preparing for the birthday of our Great Master Lalaji, my revered Master. That day is of great importance. It represents the beginning of a

great spiritual movement, discreet in its beginnings and which, by divine grace, will cover the world with its benefits."
