Whispers from The Brighter World
A Fifth Revelation

*Monday, February 14, 2005 – 10:00 a.m.*

*In our way, the requirements relate to the practice and compliance with the rules regarding the spiritual aspect. The material side of our way is kept to the essentials, to meeting the operational needs and the preparation of meeting places, as dictated by necessity. This aspect must be considered; inevitably in this world, it is necessary to conform to the established principles governing community life.*

*"Our domain is vast. The world of the spirit has its own rules as well, which act without distinction of race and social classes; the latter have no real meaning.*

*"Hiding behind them to define one's bearings in this world and claiming to be superior to the others is a heavy handicap. Following a spiritual way, in theory, is to have a more correct view of things, particularly on the issue raised herein. All men are brothers and yet they behave as enemies in many circumstances. The time of fraternity has not happened yet on this Earth where the precariousness of life fosters basic instincts in each one of them.*

*"Developing one's spirituality is the best means to remedy it, as it widens the level of consciousness. Our way is working in that direction; it follows its line of conduct and action in this world that is increasingly troubled by all kinds of excesses, as a great number of human beings do not respect any limits.*

*"The call to order will consequently be harder; blessed are the pure in heart who try to keep the divine laws by respecting them. We lavish them with encouragement and bless them in their endeavours."*
