Whispers from The Brighter World
A Fifth Revelation

Thursday, April 7, 2005 – 10:00 a.m.

Your Master carries the torch, my child. Consider only him and the light he conveys in hearts thirsting for the Divine. All the rest is sometimes painful, but one day what will remain of these incidents that marked your life, of the experiences that enlightened you on your evolution?

"Do not get discouraged. Deep in your heart, carry faith for better days by following him in whom you have placed your trust. Think of the mobilisation of your brothers and sisters in view of this day of remembrance, when they are united in the same process: a constructive spirit for the Mission and an edifying one for the blooming of their soul.

"One has to earn everything, particularly in this area where attaining the world of the Spirit requires an important personal investment. Our Mission is at a turning point in its history. It prepares a promising future for the evolution of beings populating this planet, who are evolving in a different context, more open to the realities of the creative power.

"The truth will then be acknowledged by men as something obvious; they will be surprised to have neglected it for so long when they were subjected to deceptive appearances, the pitfalls of which they could not avoid. Everything in its own time; let us diligently continue our work on both sides. The future is being built now; let us work together in this direction.

"Blessed are all our brothers who are faithful to the spirit of our Mission."
