Whispers from The Brighter World

A Fifth Revelation

Thursday & Friday, April 14 & 15, 2005 – 10:00 a.m.

Believe in life, my child, in its immutable aspects. Do not lose heart; by assuming your destiny with faith and surrender, you will progress in wisdom.

"Surpass the human condition; look further and upwards where there is the completion of any quest. Remain determined to act in this direction and free yourself from the grip of materiality. You have the recourse of these moments of escape to other levels of consciousness that prove each day to you that an 'elsewhere' does exist, beyond this transitory incarnation; therefore endure and offer with love what life puts at your disposal.

"Each human is given the opportunity to grow spiritually, to refine himself and to be more and more united with the Divine. Helping human beings also includes making them understand the reasons for their ordeals and the intense fatigue they can sometimes feel when they are overwhelmed by them, which allows them to thus open towards a greater nobility of soul.

"Be happy; keep this joy in you like an invaluable and inalterable treasure. Be thankful for both the physically testing and the enthusing aspects you are experiencing due to your faculty of exploring other vibratory areas. No academic degree in this world can challenge this asset, unparalleled in the world of men.

"It takes all kinds to make a world – so they say. What we are providing here surpasses the current understanding of many human beings. It is high time for minds to be opened; make of it what you will.

"Stagnation is not in line with human evolution, which is planned with due respect to backward-looking people. We also must forge ahead, within the framework of history as it is foreseen."
