Whispers from The Brighter World

A Fifth Revelation

Thursday & Friday, April 28 & 29, 2005 – 10:00 a.m.

May your inner thirst for the Divine not wane; this force can carry you very far, according to the aspiration of your soul. Become all love, be all love and let yourself be carried away on the waves of bliss to the heart of beatitude.

"There is the objective; do not lose sight of it. It is your reference mark, your strength, the essence of life. All the rest is only incidental. Remain focused on this central point from where directives and inspiration emanate, bringing the overall being to its full blooming.

"To create harmony within oneself at the highest level of consciousness is the source of all that is good, of this profound peace where the soul can exult.

"Minimise the vagaries of an incarnation; they are hardly important in the ladder of life, of that which has neither beginning nor end. Live each experience as an opportunity to grow, to assert yourself in the face of the hindering elements that keep punctuating life on this Earth.

"Wisdom results from all these struggles and all these fierce battles to overcome handicaps. May all our brothers be strong, supported by their faith in what they do and in their Master guiding them on the path to realisation; may they keep visualising the goal to be reached.

"The celebration of this birthday begins; it will represent a great leap forward in the history of our way. It will leave a mark in the hearts of our aspirants as well as the resulting special blessings, fostered by a special vibratory wave.

"May all remain united in the same creative thought, fully determined to continue, never forgetting the targeted goal. Only it is to be considered in this matter where they give their best."
