Whispers from The Brighter World

A Fifth Revelation

Sunday, May 8, 2005 – 10:00 a.m.

At its peak, the new era will see the advent of the reign of the 'heart' in all its manifestation. There is yet a long way to go, but nothing is impossible for the divine power, the scope of which man cannot assess. Love, in its subtler vibratory form, is equipped with a means of action, which man cannot easily understand.

"All these concepts escape him. He has his own references, his marks to which he is attached most of all, since for his balance he needs to stick to what he can see and believe in. His life is driven by his sensory system; this is what characterises him. When highlighted, another aspect of his capabilities, whose extent he is unaware of, will be revealed to him.

"When this time comes, the human being will become aware of the subtlety of his true nature in relation to the cosmic forces. He will accept this discovery, as nature will have expunged from within the miasmas that had hitherto burdened him. The revelation of the Spirit will be able to be established here below. Being reinvigorated, the hearts of men will open up under the effects of grace.

"This can make today's men dream, as they are grappling with the baseness generated by the current world that is disoriented and has lost the sense of respect and true values, those which constitute a point of reference. It is necessary to hit bottom before rebounding and then opening up to other prospects.

"This reign of the 'heart', of love among men, is what we are trying to create here through the work which is being carried out in our way.

"This project may seem inordinate, but it is an integral part of a vast overall movement in line with the tide of history of the world of men. This world has reached the threshold of transition, opening up to other horizons where our way is and will play its role for a long time."
