Whispers from The Brighter World

A Fifth Revelation

Saturday & Sunday, May 14 & 15, 2005 – 10:00 a.m.

Your human eyes could not bear the blazing fires of the divine life in their highest expression. They have a power that cannot be envisaged; only your heart, through a rather special approach, can have a glimpse of it.

"What you experience in these contacts pertains to another level of consciousness where your perceptions allow you to receive our remarks. You are incarnate and not dissociated from matter; therefore, you cannot be completely integrated into a system that is vibrationally different in its frequency.

"Everything in its own time, my child! What you are doing is not ordinary. These gifts allow you to serve us, and thanks to these messages, to try to convince our brothers and sisters about the reality of the worlds, along with their diversity. In the future, communicating with them will be accessible to all those who, having made the necessary progress, will be able to adapt to circumstances and to familiarise themselves with this means of expression.

"This will become normal, shall we say. The means of access will be within the reach of those who seek. Prejudices and taboos will be outmoded; humans of tomorrow will have their own convictions, taking into account their open-mindedness on these phenomena. They will be able to convince themselves of a reality that is still very distant from them today.

"These approaches will prepare our aspirants; they must go in this direction. Our way is ahead of what will become normal practice for a new era that many

are talking about while still being suspicious of the different aspects it could carry. Thus is the human being; he needs, in some circumstances, to be rushed."
