Whispers from The Brighter World

A Fifth Revelation

Tuesday, May 17, 2005 – 10:00 a.m.

Knowledge is acquired through the openness of the spiritual heart and not through the intellect. We have emphasised enough that without this work the path remains more sinuous. Our system operates directly, hence the interest in unremitting practice, without which the seeker would not obtain the expected results. Some of our aspirants proceed in a dilettantish manner, without real commitment on their part, hence the slowness of their progress. It's up to them to be more dedicated.

"God is all; the rest is a series of ups and downs of life, down to its least events. Man has to make his choices, especially with regards to spirituality where such choices are decisive for his future.

"Our aspirants have the opportunity to progress. Having a living Master is a guarantee of success whose importance they are not really aware of. Some of them deeply feel the need to surrender to the higher force, which operates through him.

"A Master lights the way, the destination chosen for the aspirant. The powers vested in him by divine grace are reflected on the whole of the Mission, which meets its requirements. It was created with a very specific purpose and within the framework of a spiritual openness whose intensity will grow over time.

"The era of stagnation and multiple wanderings will end in this century, making a large breach in the wall of collective ignorance.

"One should no longer be afraid of saying that the divine intentions are going in this direction, and no power in the world will decide on when they will take place. These remarks are merely the expression of a higher reality."
