Whispers from The Brighter World

A Fifth Revelation

Friday, July 29, 2005 – 10:00 a.m.

What else can we tell you? Actually, hasn't everything already been said? And yet, we cannot bring ourselves to stop our contacts. My son awaits these messages, even if they do not teach him anything new. The bonds of the heart are easily satisfied with the impalpable, with an emitted vibration with which they can be nourished, beyond the depth of the texts. The truth is simple: these writings make no literary pretence and can disappoint the 'smartest minds', or even shock those most impervious to this kind of communication.

"It is impossible to please everyone in this world, where all tendencies must express themselves in order to purify a very heavy collective karma. Currently, everything is accelerating; human reactions are exacerbated among most human beings, who grapple in particular with electromagnetic waves that they cannot control and yet are very harmful to all. This dangerous situation is accelerating, without anything currently being able to curb it.

"Men are caught in a way of life which presents advantages that they can no longer do without, and this is irreversible. In this context, everything is made to weaken human defences, and that, on all levels. Trapped in this process, people no longer take care and prefer to benefit from what is offered to them in terms of convenience. We cannot change anything about this; we only intend to help souls rise more and more, until the completion of every quest towards the serenity of the Absolute.

"May all succeed; this is the reason for our ceaseless actions for the good of humanity."

Babuji
