Whispers from The Brighter World

A Fifth Revelation

Friday, August 5, 2005 – 10:00 a.m.

To communicate with the higher entity of your Master is no common event. Your contacts take place on a higher level of consciousness where a different approach to phenomena is possible. Many human characteristics as well as the bonds of your souls bring you closer together, which makes your contacts easier through some vibratory harmony.

"My child, the enlightened minds will understand. Your view differs from theirs; it goes beyond this world. But they will sense, through the remarks emanating from your meetings in spirit, all the soundness of their contents. In the future, the whole of humanity will reach knowledge: that which is currently reserved for a restricted elite, who live generally cut off from the world, in places protected from its harmful effects.

"To popularise some truths concerning the world of the Spirit, as we are trying to do with these writings, is justified by the necessity of the times and is wanted by a college of Great Beings divinely inspired. The teaching, on occasion, must precede facts observable by the multitude, before the occurrence of important upheavals in this world.

"Many of our brothers are ready to follow us in this long process preparing the new era and all aspects associated with it, which most human beings will find astounding. These messages are not given to satisfy a simple curiosity about the mediumistic phenomenon. They exist vibrationally and represent, at this stage, an important mass that adds to all that constitutes the egregore of our way.

"God so wills it. His ways are unfathomable and we respond to them with greatest jubilation, in order to preserve what must be preserved and ensure that humanity progresses in a complete transformation of spirit."
