Whispers from The Brighter World

A Fifth Revelation

Saturday, August 20, 2005 – 10:00 a.m.

Never lose confidence in life, in its power of regeneration. We have repeatedly stressed this aspect throughout these messages. If they read them carefully, our brothers will find in these messages elements capable of making them reflect on the precariousness of their Earthly existence. Consequently, their life choices will be decisive. Will they trust us and will they commit fully to the process of their evolution? It is up to them to decide; we will support them whatever happens.

"The era of an effective spirituality, decisive for the history of this world, is particularly in the offing, allowing one to anticipate a surprising transformation at all the levels. Some aspects of this transformation are currently in place. Though still imperceptible, they are nevertheless preparing the future of the world. How could this world sink any further into decline, into excesses of all kinds, limitlessly, unrestrainedly? Helping our aspirants remains our priority here. Their current choice of life places them favourably in this great arrangement where they are trying to define an acceptable place for themselves.

"A true spiritual process is a solid anchor in an era of transformation that must take place for the good of all. Leading our brothers into reflection and efficient dedication, such is our goal, as above all we wish for their good. In this respect, our ceaseless repetitions are necessary, come what may!"
