Whispers from The Brighter World

A Fifth Revelation

Accede to serenity – that which is immutable in you – and rejoin us in this space where you regain peace. Here, your heart can blossom and become attentive to our remarks. Their vibration is correctly balanced – shall we say – hence the need, so often emphasised here, to read these messages in the order in which they are given. There is actually a process taking place through them that strikes the right chord in the hearts of those who read us attentively. Words also have a vibratory capacity. Doesn't everything hinge on this principle, although men don't take care in this regard, in both positive and negative aspects?

"All these concepts can seem meaningless to the common run of people. Our aspirants must surpass this stage and should not neglect the power of words; such power is real. If they apply them negatively, they break a sense of harmony and balance, thus harming their spiritual practice. At this stage of their evolution, everything is considered. Each one of our abhyasis must be prepared, in view of an overall planned evolution. In our way, open-mindedness should not remain an empty word but a reality that is more than ever necessary for their personal work.

"We take care of the transformation of all, without taking into account individual tendencies. The onus is on our brothers and sisters who are advancing on the path to truly take responsibility for themselves in the various aspects of life that depend upon them. May they all remain fervent and receptive to what we tell them, for their sole good."
