Whispers from The Brighter World
A Fifth Revelation

Friday, September 2, 2005 – 10:00 a.m.

The tragedies shaking the world currently will perhaps make men become aware of the fragility of their Earthly existence and the illusory superiority of power and material goods. Nothing is definitively acquired in any area, except for human and spiritual values. Those are imperishable since they go beyond the framework of this incarnation, in terms of their positive effects. Humanity is engaged in a system of life that does not preach true values, hence this regrettable mistake leading it to the worst excesses. How far will it go in this, no one can say exactly, but the awakening to reality will be hard for all.

"No, our comments are not exaggerated, as some of our readers may think; they will have the opportunity to judge for themselves.

"Amid these turbulences, our way keeps following its route, without deviating and without being distracted by new ideas on many subjects, which some of our aspirants are very fond of. Their reactions are human, but true spirituality is beyond trends and the attraction of the senses; it is immutable and beyond time, and that is not about to change. All the human aspects are expressed in the long process of a soul towards the goal to be reached. Time must do its work; that is the way it goes. In any case, our brothers and sisters are engaged in an evolutionary process geared towards detaching them from a materiality whose effects are simplistic.

"May the era of knowledge and elevation of souls be established on the Earth, forever!"
