Whispers from The Brighter World

Sunday, June 6, 1999 – 8:00 a.m.

As we already said, our method is underestimated, misused. You do not extract from it the maximum of its possibilities, a little like your brains, the resources of which you are all using only a very small part.

We insist on this fact, for those most determined to go all the way to the end. It is a pity not to benefit from it fully.

One has to be ready and to want it. Once the guiding thread is found, it is a mine that you will have to dig. It will let you discover its treasures, parsimoniously.

You will engage there with delights, without fearing any sort of inconveniences: "Seek and you will find." How many Christians have really understood the meaning of these words.

The formula is for all times, many seek the treasure and few find it.

The illuminating lamp that you are given is especially effective. It's up to you to use it properly.

Let it give you all its light, do not reduce it to a weak flame.

Let this sun burst forth in you, let it illuminate you from head to toe, to the point of making you phosphorescent.

Go always deeper inside yourself, in this bottomless gold mine.

One day, if you really want it, you will make this personal discovery and see that we were not exaggerating.

You are all suns in potential. You are the divine life incarnate – become torches illuminating the world.

Meditate on all that, not only with the head, but with the heart.

Seek the secret passage, the door that leads to the final goal.

You must get there by putting in some effort, it is worth it.

What more can we say to convince you. This secret grotto is inside you, it's up to you to dig ever deeper.

Be focused on this discovery. Success, with the assistance of your incarnate Master – indispensable to every true success of this kind – will make you switch into another dimension unsuspected by your senses. This will be total happiness for you.
