Whispers from The Brighter World
A Fifth Revelation

Tuesday, October 18, 2005 – 10:00 a.m.

Our Mission should not depart from its line of conduct; it is above all spiritual and must remain so. Its vibratory impulse belongs to this line, appropriate to the spirit of the present and the future, fostering its expansion in this world. All efforts must bear fruit in this direction, materialising the action of each and every one, united in this great ascending movement.

"Our way will illuminate many souls, particularly in very hard times fraught with ordeals which many people will find difficult to endure. Practice gives fortitude. Humans keep weakening on all levels, hence the need for our aspirants to develop this kind of defence. Our Mission was not born in vain. Its path will be amazing in terms of its development and its impact on those who trust us, and it will carry this torch whose intensity will grow with time. The future of our way is promising; for that, it must follow its line of conduct and truly stick to it.

"Our son, blessed among all, guides this Mission with perception and energy. He is its Master in every sense of the word. Do our aspirants really understand his spiritual personality? It seems not, as most of them only look at his human person. They must try to look further and imagine his action on other levels of consciousness where this action takes on its actual dimension. There, there is no doubt about His greatness; it would astound the majority of them."
