Whispers from The Brighter World

A Fifth Revelation

Friday, October 21, 2005 – 10:00 a.m.

The Mission is one large family; as such it grows with time and its descendants will leave a major mark on a humanity that is undergoing massive changes. All must move in this direction and foster this expansion, with places where people can practice under the best conditions. Gatherings – we insist on this aspect – are essential for the life of the Mission. They foster encounters as well as awareness of each one of our aspirants, creating bonds and uniting hearts in a vibratory current specific to our way. To focus on the prospect of a seminar, already makes one prepare for it in one's heart and take ownership of the energy developed by this project, thus fostering Master's work whether he is present physically or not. The visible and the invisible go side by side. Our brothers and sisters must fully realise it, or risk stagnating within the bounds which they unfortunately impose on themselves. The day when these messages are published in their entirety and in the order they were given, our brothers and sisters will feel, by reading them, even more their Master's intensive work answering their call.

"Humanly, they cannot seize all the subtleties thereof. Tied to their body of flesh, they often miss opportunities offered to them and which they do not seize. Thus is the nature of man; all do not have sufficiently refined perceptions to go into these kinds of considerations. All are making progress in their own way. Years of practice widen the gap between them, but they are the same in the essential

aspects: perseverance, respect and love for their Master, the privileged custodian of their spiritual capital."
