Whispers from The Brighter World

A Fifth Revelation

Wednesday, November 9, 2005 – 10:00 a.m.

Advance amid turbulences by focusing on the most important thing, without being too much affected by them. You have already come a long way that has been edifying about the realities of life in this world. Therefore, only see the beautiful, the future fulfilment of the divine inside yourself, in surrender to the higher powers. The role of the Master in spiritual evolution is vital; you understood this need that guided you towards our way. Such is the accomplishment of your destiny taking shape, in the wake of Him to whom all the powers relating to it are entrusted: the Chosen one, the living Master who plays a predominant role at the cusp of two phases of the world's history, in the most significant aspect of its evolution.

"Be confident in this future that will lead humanity to regenerating itself and starting all over again in a more sophisticated way concerning a reality which today's man cannot comprehend. Do not lose heart in the face of difficulties. This stay on Earth seems long to you and devoid of interest, in this period of life where your means of action are limited. Yet, you know that each stage of an incarnation on this Earth matters, even if it is difficult to live.

"Thanks to this means of receiving us, we try to convey a message of hope to suffering humanity. We also try to sensitise all our aspirants to the fact that time is short and that wasting it uselessly is harmful to all. May all be enlightened on this need and thus be clearly shown the surest way. The spiritual way is shown, for

those who are craving for change towards a healthier humanity that is less shallow in all aspects."
