Whispers from The Brighter World

A Fifth Revelation

Saturday, November 19, 2005 – 10:00 a.m.

This long process will come to an end some day. An impressive number of messages have been noted down; they will constitute an invaluable contribution to our way. Some publications internal to our Mission will be forgotten, whereas these messages will remain in the future. Thus our Mission is given a special touch, appreciated by our practising aspirants who would have understood through these writings the simplicity befitting a spiritual process. Extolling the virtues of divine love, surrender and an unfailing faith in the spiritual Master – these summarise all the necessary elements of a true process for the desired opening of heart. The purpose of this work has been to help all our brothers and sisters on this laborious path. It is up to them to feed themselves on these messages in the appropriate manner; the divine grace will do the rest. Through this long history, a summary of some principles has been provided. It is meant to contribute to the union of hearts that seek to go beyond matter, to reach an illuminated level of consciousness that will bring them the vibratory harmony they are longing for.

"It is by immersing themselves in their practice that they can manage to find this holy door leading to spaces they cannot humanly analyse. When these writings are made available to everyone, as we here wish, a step will have been made in the understanding of a possible communication between worlds. The era of knowledge will bring many more openings; our aspirants must get ready. Our way is not

fossilised in its principles. May our brothers and sisters follow us trustingly, with an enlightened look on higher reality."

Babuji
