The Medium: "Babuji, take me along like Alice in Wonderland. I don't feel up to much."

Meditate, my child, we will recharge you with energy. You are going through a phase of work which shakes you up; it is normal. This is compounded by the fact that you must also cope with your health issues. We support you with love; you should resist, do not neglect your treatment. Do what was planned today. We will resume later. We only want your good, and you know it. The doctor is doing his level best to help you. You intrigue him. He is not the first to be so [intrigued]. You will help this man, and he needs to be helped. We will guide you to let him get out of his difficulties; he helps you, we help him. Who knows really whom you represent? As per your wish we will not say anything else. Sufficiently refined beings can feel it. Continue giving, act without their knowledge; thus, all is well."
