Whispers from The Brighter World
A Fifth Revelation

Thursday, February 16, 2006 – 10:00 a.m.

The opacity of the material world will come to an end one day, thus providing human beings opportunities to contact parallel worlds. It is time for this heavy curtain shrouding the most elementary realities to be raised, and for those realities to be understood by all men. In the depths of this era of decline and degradation, it is good to foresee a complete transformation of humanity, releasing it from its misconceptions. Let come the last convulsive movements of extravagance, those into which men are sinking, so that they can emerge into another level of consciousness more suited to their evolution. The cup must be drained to the last drop, as you say. This is the case with humanity, with multiple nuances, of course. To follow a spiritual path is to protect oneself from the negative effects of the current sinking of humanity. May the time for emergence of the sovereign beauty come, that beauty whereby souls are in harmony with the Spirit, in absolute creativity, arisen from its omnipotence.

"Our way, devoted to this force, fits perfectly into this evolutionary pattern, the inexhaustible source of a life process suitable for future times. Imperceptibly, all is taking place in accordance with the laws of this world, and its current vibration, which has slowed it down on all levels, is being transformed. Advancing slowly but surely, this current of subtle energy is being spread, permeating hearts willing to receive it and to contribute to its spread in and around them. All that lives on this Earth is affected by this change; it will be unprecedented in man's memory. What existed before belongs to God, whose works cannot be understood by them. Let us make progress in our comments. This Sahaj Marg Mission is

capable of helping them in many respects, by preparing them in the best way – in the secrecy of the heart."
