Whispers from The Brighter World

A Fifth Revelation

Sunday, March 5, 2006 – 10:00 a.m.

We do not abandon you. We are only turning a page for your good, since you would not, on your own initiative, decide to stop due to your health. Our contacts will take place differently and will not be less constructive – be assured about this. You are and will remain our chosen scribe. Your heart is the garden of delights where our accomplishments are achieved, with well-targeted choices. There are no successors in this area where almost everything has been said. Is our love relationship not exemplary? It will influence people by leaving an indelible mark in our way. In terms of listening to your Master, you belong to a special level which will also stand out in history. All is well, my dear daughter. Be at peace; time is doing its work. It sweeps away fears and doubts. Our history continues and it will carry over beyond the world of men. Beautiful pages will be written, in a different way, in the register of time. Look at life in its brightest light and love us more than ever – a love unparalleled on Earth. This treasure is in you and is unequalled on Earth; therefore look towards us, relentlessly. Let our hearts be your refuge and the compass that will not fail you. Be in a state of acceptance, for everything. Another page of this history remains to be discovered. It will not be the least, in terms of the interest it will be likely to stir. Does the world not need love, poetry and distancing from all tragedies occurring here below? This island of coolness is a divine grace offered to our readers. May it be felt in their hearts."
