Whispers from The Brighter World

A Fifth Revelation

Thursday, April 27, 2006 – 10:00 a.m.

Joy – the same as ever – we will never insist enough on the importance of the rare energy it can generate, benefitting the entire being. This special joy resulting from the Divine is altogether different from that which is commonly felt in everyday life. The celebration of a birthday, as carried out in our way and honouring the series of Masters coming to serve it, reinforces its egregore on all levels of consciousness, hence its importance on the material plane. To approach it, a special state of mind, including this joy, is essential. We wanted once more to address this critical issue related to the life of our Mission, as far as this special aspect is concerned. In the context of a spiritual way – more than elsewhere – all has its raison d'être, which lies beyond human perceptions.

"Confidence and surrender to the Master are justified by acts that are seemingly the most insignificant, although they constitute the web of the abhyasi's destiny and, in the longer term, that of our way. The Mission is a coherent whole. Whatever the apparent and inevitable imperfections in this world, it is progressing towards the goal, which in the future will be defined by its broad outline and its importance to the construction of a better world. Let us progress in this direction by acting according to our own directives in the service of a suffering humanity, seeking a salutary outcome where spirituality must play a major role.

"A special energy touches hearts during the preparation phase of this birth anniversary. Felt in various ways by our brothers and sisters, this energy nevertheless constitutes the essence of this celebration by marking it with the divine seal, which is a special grace bestowed on our spiritual way that is blessed

with a special status at the dawn of a new era. May peace and joy be in all hearts; the special blessings of the Masters, united together in this great plan, accompany each and everyone according to their wishes and profound aspirations."

Babuji
