Whispers from The Brighter World
A Fifth Revelation

Monday, January 1, 2007 – 10:00 a.m.

My beloved son, the years are passing by. You are growing in wisdom and in your power of action at increasingly subtler levels. The Mission has become an immense web where this action is felt, even where it is not so expected – which our aspirants are not really aware of.

"Nobody is isolated, forgotten, or deprived of what they need for their evolution. Being far from one's Master does not mean stagnating; in such a case, only personal commitment matters, as well as ardour in uniting with the Master. Whatever a disciple's remoteness, his heart is inhabited and suffused with an energy that is specific to our way, and which shapes him to our liking. Too many people tend to forget it.

"My dear son, your work has developed – can you imagine to what extent? Such is our assessment and we are appreciative. The impact will be felt with time, since your action is already expanding in view of the future. You have yet to consolidate your action, to structure it, by choosing worthy representatives who serve our cause and are completely committed in full compliance with our laws; this is essential. Personal initiatives are dangerous and must be avoided.

"May this New Year be beneficial to you and all our brothers and sisters who are following in our wake, in this evolutionary and liberating system. May all our aspirants overcome their differences of opinion and unite with love – this energy that no one can imagine the extent to which it can transform a heart that is receptive to its effects.

"We are with you, more than ever. Standing at the highest level of our hopes, you fulfil them, my son. May our celestial songs carry you and reinvigorate you in your heavy task! With all our love, offered like a divine bouquet of a thousand colours. With our very special blessings!"
