Whispers from The Brighter World
A Fifth Revelation

Tuesday, March 6, 2007 – 10:00 a.m.

Mankind in the future will be fully enlightened on essential truths, in particular with regard to religions. Those, whose teachings were deemed to be not to the liking of humans, were deliberately distorted by them to protect their power. This book also leads the way to more correct information concerning the truth. This religion [Catholicism] is not the only one that distorted the original teachings. Times are changing and will change even more. A day will come when all the truth will be revealed about issues still considered as taboo nowadays. All this does not concern us; the truth will be brought to light naturally at the appropriate time – God willing.

"With regard to these messages, we proceed within the limits set to us, with our respective objectives – on this also there is a casting of roles. Each one has to find, through reading us, what is suitable to each one; that is how it is."
