Whispers from The Brighter World

A Fifth Revelation

Sunday, March 11, 2007 – 10:00 a.m.

The Medium: "My Divine Guide, you have been my longstanding source of life here below. You give me courage to struggle, to face up to the ceaseless ordeals, and above all, you give me a better vision of this world's reality together with an openness to the beyond. Without this prospect for an elsewhere, how could one be able to endure in some circumstances?"

My daughter, you are among the privileged ones, those who know that this elsewhere exists. This is not the case for all human beings. We work on Earth with the aim of a total evolution of humanity and an expansion of consciousness for its complete and irreversible transformation. This is not utopian. We have already said that this time will come. Its scale is outside human standards, but the process is in the making. That is how it is. May all work in this direction, with positive thinking and above all while practising in our way with faith and perseverance."
