Whispers from The Brighter World

A Fifth Revelation

Wednesday, August 15, 2007 – 10:00 a.m.

Live the present moment, with this period of grace in which we inhabit your heart for a noble cause.

"You cannot assess the impact of these messages, but who really can? Their vibration is beyond human perceptions in the current era. We can nevertheless assess, as of now, their impact on the hearts of abhyasis or others – there lies their secret. Our very dear son takes all the credit for making them known. Therefore, think of what your ceaseless efforts have generated over the years and rejoice.

"Be blessed."

Babuji
