Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

A Fifth Revelation

Wednesday, September 12, 2007

One door closes while another one opens. Hasn't it been so since the beginning of this story of messages? So let us wait, as he sees fit.

"Let us look forward, towards His Greatness. Doesn't it fill our hearts with wonder, to the extent of leaving them in a joy that is mystical and unequalled!

"We only wish to work in his wake while meeting His wishes.

"May He employ our hearts as He pleases; serving Him is their utmost happiness."

S.E.

"How could we not carry on – according to the current possibilities – with these exchanges where your hearts merge together in the Immutable Peace? Though they take place less frequently, these contacts remain intense and try to give a sense of the power emanating from the Great Celestial Heart – the driving force of any life, wherever it takes place. Our brothers and sisters will feel the intensity of these unique moments provided solely by their inner state.

"Blessed with this special grace, you enjoy a divine feast. May you draw abundant food from it, one that is unparalleled in this world of darkness!"

Babuji

The Medium: "O Babuji, you delight my heart. Between yours and that of my divine Master, it feels happy to exist, to love and to put it in writing as per your request. Its dearest wish here below is to express its love to you and to repeat it as its ultimate song."
