Whispers from The Brighter World
A Fifth Revelation

Thursday, January 1, 2008

Do you realise how privileged you are? You have access to our hearts, better than anyone else. Only love guides you, selflessly – thus has it ever been since the beginning of this long mystical epic whereby so many messages have accumulated. See how our Mission is taking on its importance with time. Thus is the law in this world; that which endures slowly makes its way into hearts. The Mission marks out its own way as planned and it will influence hearts for a long time."
